

Reversing Sub

Reversing sub

The reversing subs are also called the reversing spear which is a special tool for reversing stuck drill stem above the stuck point in drilling and workover operation. In the treatment of a stuck drill stem, it can work as a fishing pin tap in reversing operation. When the fish is stuck or cannot be reversed in fishing or reversing operation, the fish can be reversed from reversing sub and the fishing drill tool is tripped out.

Reversing Sub (thread connection LH, catch thread RH)
